5 development is available adjacent to the streetcar
6 line.

7 (6) The project application demonstrates either
8 how redeveloping or new neighborhoods on vacant or
9 underutilized land will be connected by the project to
10 each other or to major attractors in the central city
11 where the project will be carried out or how
12 circulator or connector lines under the project will
13 connect developed neighborhoods with one another
14 or with the business district in the central city.

15 (c) APPLICATIONS.—In order to receive grant assist-
16 ance under this Act, a sponsor of a project must submit
17 to the Secretary an application that includes a detailed

22 car line.
